Acceptable Internet Use Policy – adults who work in the school community (this includes governors and volunteers)

New technologies have become integral to the lives of children and young people in today's society, both within schools and in their lives outside school. The Internet and other digital information and communications are powerful tools, which open up new opportunities for everyone. These technologies can inspire discussion, promote creativity and stimulate awareness of context to promote effective learning. They also bring opportunities for staff to be more creative and productive in their work. All users have an entitlement to safe Internet access at all times.

This policy is intended to ensure that:

• Staff, governors and volunteers will be responsible users and stay safe while using the Internet and other communications technologies for educational, personal and recreational use.

• All school ICT systems users are protected from accidental or deliberate misuse that could put the security of the systems or users at risk.

• Staff are protected from potential risk in their use of ICT in their everyday work.

The school will try to ensure that staff, governors and volunteers will have good access to ICT to enhance their work, to improve learning opportunities for all and will, in return, expect staff, governors and volunteers to agree to be responsible users.
